

# Worst Pills, Best Pills News

Your expert, independent second opinion for prescription drug information

2023 Index

## Worst Pills, Best Pills News Index

All drugs in this index have been the primary subject of articles published in *Worst Pills, Best Pills News* from January to December 2023.

If your drug of interest is not listed in the 2023 index, you may be able to find information about the drug by subscribing to our website, [WorstPills.org](http://WorstPills.org).

As a print subscriber, you can join [WorstPills.org](http://WorstPills.org) for only \$10 for 12 months and get unlimited

electronic access to all available back issues. To take advantage of this special offer, go to [www.WorstPills.org/PRINTPROMO](http://www.WorstPills.org/PRINTPROMO). Then enter the promotion code PRINTPROMO. You'll continue receiving your print subscription plus gain access to all back issues since 2004.

## How to use this index

Generic drugs are listed in lower-case letters.

Brand names are listed in CAPITAL LETTERS.

Volume numbers (V) refer to the year (V29=2023)

Issue numbers (#) refer to the month of the newsletter (January=1, February=2, etc.).

## Worst Pills, Best Pills News – Volume 29 – Index by Title

### December 2023 – V29#12

- Enforcing Reporting Requirements for Clinical Trials
- FDA Advisory Committee: Over-the-Counter Oral Phenylephrine Is Not Effective for Relief of Nasal Congestion
- Meta-Analysis: Flu Drug Oseltamivir (TAMIFLU) Ineffective for Preventing Hospitalizations in Outpatients
