

Worst Pills, Best Pills News

Your expert, independent second opinion for prescription drug information

2024 Index

Worst Pills, Best Pills News Index

All drugs in this index have been the primary subject of articles published in *Worst Pills, Best Pills News* from January to December 2024.

If your drug of interest is not listed in the 2024 index, you may be able to find information about the drug by subscribing to our website, WorstPills.org.

As a print subscriber, you can join WorstPills.org for only \$10 for 12 months and get unlimited

electronic access to all available back issues. To take advantage of this special offer, go to www.WorstPills.org/PRINTPROMO. Then enter the promotion code PRINTPROMO. You'll continue receiving your print subscription plus gain access to all back issues since 2004.

How to use this index

Generic drugs are listed in lower-case letters.

Brand names are listed in CAPITAL LETTERS.

Volume numbers (V) refer to the year (V30=2024)

Issue numbers (#) refer to the month of the newsletter (January=1, February=2, etc.).

Worst Pills, Best Pills News – Volume 30 – Index by Title

December 2024 – V30#12

- Compounded Injectable Semaglutide and Tirzepatide: Bad Choices for Any Use.
- Drugs and Drug Combinations Associated With Cognitive Decline in Older Adults
- The FDA and 'Confidential Commercial Information'
- FDA Approves the First Epinephrine Nasal Spray for Life-Threatening Allergic Reactions
- News Brief: Benzoyl Peroxide Acne Drugs Can Form the Human Carcinogen Benzene
- News Brief: Updated CDC Recommendations for RSV Vaccines

November 2024 – V30#11

- Botox-Related Illnesses: Public Citizen Urges Consideration of Botulism Caused by FDA-Approved Products
- The Continuing Influence of Industry Payments to U.S. Physicians
